## DETAILED ACTION

### *Response to Arguments*

1. This action is in response to remarks received June 8, 2004.

### *Allowable Subject Matter*

1. Claims 1-26 are allowable over the prior art of record and in light of applicant's arguments.

2. The following is an examiner's statement of reasons for allowance:

The detailed limitation of, "generating a message including plural elements, each element being a node element representative of a respective node of the tree or a leaf element representative of a respective leaf of the tree, each node element having an associated size value indicating a number of leaves or nodes depending from the respective node, each leaf element having an associated size value indicating a size of a value in the respective leaf", was not found in any of the prior art references obtained from the searches conducted by the examiner. Although the teachings of Leaf, U.S. patent 5,754,772 teaches generating a message having a size value associated with data contained in a data structure, it does not teach the size value indicating a number of leaves or nodes depending from a respective node. Furthermore, the applicants remarks were persuasive, and have convinced the examiner that Leaf lacks the motivation to be combined with the prior art of record in order to arrive at the limitations of the claimed invention.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hassan Phillips whose telephone number is (703) 305-8760. The examiner can normally be reached on M-F 8:00am-5:00pm.
